International Journal of Cardiac Imaging **6**: 323–324, 1991.

Contents volume 6, 1990/91

Vol. 6, No. 1

C. Veyrat, S. Legeais, D. Sainte-Beuve and D. Kalmanson, Color and pulsed Doppler studies of atrial flow dynamics in normals and adult patients with uncomplicated atrial septal defects 1
G. Habib, M. Benichou, J.L. Bonnet, P. Jau, J. Bille, P. Djiane and R. Luccioni, Assessment of normal and abnormal prosthetic mitral valves by Doppler echocardiography 11
T. Störk, M. Möckel, O. Danne, C. Ewert, R. Müller, T. Bodemann, H. Eichstädt and H. Hochrein, Age-related hemodynamic changes during diastole: a combined M-mode and Doppler echo study 23
J.J. Popma, G.J. Dehmer and E.J. Eichhorn, Variability of coronary flow reserve obtained immediately after coronary angioplasty 31
P. Haaker, E. Klotz, R. Koppe and R. Linde, Real-time distortion correction of digital X-ray II/TV-systems: an application example for Digital Flashing Tomosynthesis (DFTS) 39
P. Decoodt, B. Péperstraete, R. Kacenelenbogen, Th. Verbeet, J.-P. Bar and M. Telerman, The spectrum of mitral regurgitation in idiopathic mitral valve prolapse: a Color Doppler study 47
D.D. Miller and R.A. Walsh, *In vivo* phosphorus-31 NMR spectroscopy of abnormal myocardial high-energy phosphate metabolism during cardiac stress in hypertensive-hypertrophied non-human primates 57
International conference calendar 71
Instructions to authors 73

Vol. 6, No. 2

R.A. Henderson, A. Pipilis, R. Cooke, A.D. Timmis and E. Sowton, Angiographic morphology of recurrent stenoses after percutaneous transluminal coronary angioplasty: are lesions longer at restenosis? 77
K.S. Sunnerhagen, S.C. Smith, B.E. Jaski and V. Bhargava, Ischemic heart disease and regional left ventricular wall motion: a study comparing radial, centerline and a video intensity based slope technique 85
S.R. Mittal and U.B. Jain, Doppler documentation of aortic and tricuspid incompetence in left atrial myxoma 97
N.H.J. Pijls, G.J.H. Uijen, T. Pijnenburg, K. van Leeuwen, W.R.M. Aengevaeren, J.D. Barth, J. den Arend, A. Hoevelaken and T. van der Werf, Reproducibility of mean transit time for maximal myocardial flow assessment by videodensitometry 101
S. Globits, H. Mayr, H. Frank, A. Neuhold and D. Glogar, Quantification of regurgitant lesions by MRI 109
S. Jost, J. Deckers, W. Rafflenbeul, H. Hecker, J.H.C. Reiber, P. Nikutta, B. Wiese, P. Hugenholtz, P. Lichtlen and the INTACT-Group, International nifedipine trial on anti-atherosclerotic therapy (*INTACT*) – methodologic implications and results of a coronary angiographic follow-up study using computer-assisted film analysis 117
B. Ilmer, A.E.M. Reijs, J.H.C. Reiber, W. Bakker and P. Fioretti, Relationships between the lung-heart ratio assessed from post-exercise thallium-201 myocardial tomograms, myocardial ischemia and the extent of coronary artery disease 135

Book review
R. Underwood and D. Firmin (eds.), Magnetic resonance of the cardiovascular system (J.H.C. Reiber) 100
International conference calendar 142

Vol. 6, Nos. 3–4

Editorial 143
R.J. Crowley, M.A. Hamm, S.H. Joshi, C.D. Lennox and G.T. Roberts, Ultrasound guided therapeutic catheters: recent developments and clinical results. 145
H. van Urk, W.J. Gussenhoven, G.P. Gerritsen, H. Pieterman, S.H.K. The, F. van Egmond, C.T. Lancée and N. Bom, Assessment of arterial disease and arterial reconstructions by intravascular ultrasound 157
S.E. Nissen and J.C. Gurley, Application of intravascular ultrasound for detection and quantitation of coronary atherosclerosis 165
